RIGHTS

Exclusive: WORLD

Transforms accounting education by providing practical frameworks and strategies for integrating artificial intelligence while supporting professional judgment and ethical decision-making.

Strategies and Prompting in the Accounting Classroom: Harnessing AI for Effective Learning redefines how accounting should be taught in the age of intelligent technology. Grounded in both academic research and applied experience, the book offers educators and program leaders clear methods to integrate AI tools into curriculum design, instruction, and student engagement. Dr. Mfon Akpan presents practical frameworks that connect theory to action, showing how AI enhances learning outcomes, improves student analysis skills, and develops critical thinking. The book emphasizes hands-on implementation and ethical considerations, providing real-world examples of AI applications in auditing, analytics, and decision-making. It is an essential resource for faculty, administrators, and researchers committed to modernizing accounting education and preparing students for the profession's digital future.

Key selling points

Provides the first comprehensive framework for integrating AI into accounting education

Combines academic research with actionable classroom strategies and case studies

Equips educators and program directors to redesign curricula for the AI era

Emphasizes ethics, critical thinking, and human judgment in AI-supported learning

About the Author(s) / Editor(s)

Dr. Mfon Akpan, CGMA is an assistant professor of accounting and leading researcher on artificial intelligence (AI) integration in accounting education and professional practice.
