**Proposes to honor the rich, varied, trenchant, and tremendously influential scholarship of Professor Margot Norris in a series of essays amplifying her illumination of Joyce's literary oeuvre along with several prominent lines she introduced and investigated.**

This volume proposes to honor the trenchant, influential scholarship of Professor Margot Norris in essays that amplify her illumination of Joyce's oeuvre. The common denominator running through her work is her openness to Joyce's various modes of innovation; she pioneered alternative ways of regarding his fiction, the readers it addresses, the narrative and generic forms it alters, the world to which it refers, and the nature of the socio-historical status quo it exposes. These categories anchor and organize the collection: Joyce's textual plurivalence, formal innovations, possible worlds, emergent histories (including those of women), and variegated readerships.
