Series: Anthem Philosophy and Politics of Human Rights

Explores how debates on migration, indigeneity, and open borders—engaging thinkers such as Plato, Aristotle, Thomas Hobbes, John Locke, and Charles Taylor—shape contemporary democratic crises and the challenge of preserving liberal democracy.

Liberal democracies are increasingly polarized and have witnessed the rise of post-liberal authoritarians who challenge the justice of open borders. This volume examines this theme and explores fundamental questions of indigeneity, migration, and the rights of foreigners in the history of political thought.

Key selling points

- Draws on the history of political philosophy to challenge the post-liberal authoritarianism that is straining the political and civil orders of contemporary liberal democracies.
- Addresses the topics of migration and the rights of foreigners that are not commonly addressed in political theory scholarship.
- Allows philosophers to be studied independently by focusing on one or a small group of thinkers, while showing how ideas of previous thinkers influenced those of later thinkers.
- Includes authors who are nationally and internationally recognized scholars in their fields based in seven different countries from five different continents.

About the Author(s) / Editor(s)

Ann Ward is Professor of Political Science at Baylor University. She is the author and editor of eleven books, most recently *The Socratic Individual: Philosophy, Faith, and Freedom in a Democratic Age*.
