Proposes a new framework for sociological theory by integrating intersectional conflict, intrasectional diversity and heterosectional complementarity to explain society in a global context.

The Possibility of Sociology offers a foundation for sociology in today's global world – integrating approaches that see society primarily in terms of intersectional conflict, intrasectional differences and heterosectional complementarity.

Readership

Sociology students moving from year one 'classical sociological theory' to year two 'modern and contemporary sociological theory', but open to general readers.

Key selling points

This title offers:

- A constructive synthesis of what sociological theory can and should be
- A concise account of the creative tensions that sociology must continue to engage with
- Dialogue between different approaches that tend towards silos
- A foundation through which classical sociology can engage with modern and contemporary sociological concerns

About the Author(s) / Editor(s)

Matthew David is Associate Professor of Sociology at Durham University (UK). His research interests are in sociological theory and the sociology of digital networks.
