

An Interdisciplinary Approach to the Theory and Practice of Wildlife Corridors Conservation, Compassion and Connectivity

By Amy D. Proppen

Pub Date: 13 January 2026

Binding: Paperback

Price: £25.00 / \$35.00

ISBN: 9781839998379

Extent: 134 pages

Size: 153 x 229 mm /
6 x 9 inches

BISAC CATEGORY: LANGUAGE ARTS &

DISCIPLINES / Alphabets & Writing Systems

BISAC CODE: LAN001000

BIC CODE: CFLA

RIGHTS

Exclusive: WORLD

Series: Strategies for Sustainable Development Series

Charts some best practices and makes new theoretical contributions about the design and creation of wildlife corridors.

An Interdisciplinary Approach to the Theory and Practice of Wildlife Corridors charts some best practices and makes some new theoretical contributions related to the design and creation of wildlife corridors in Anthropocene times. While the book will provide much of the knowledge necessary for a general and credible understanding of connectivity projects, it will also make a unique theoretical contribution to current knowledge about wildlife corridors by arguing that theories about compassion, empathy, and traditional ecological knowledge should inform wildlife corridor projects.

Readership

The book is aimed at a range of audiences from scientists, to non-specialist readers, to those who work in nonprofit organizations, to students and scholars of conservation biology and even areas of the humanities that are concerned with human/nonhuman animal relationships.

Contents

List of Figures; Acknowledgments; 1. Introduction; 2. Key Concepts and Ideas: Connectivity from a Species Perspective; 3. Designing and Managing Wildlife Corridors; 4. Emerging Theoretical Perspectives: Compassionate Conservation, Empathy, and Traditional Ecological Knowledge; 5. The Wildlife Crossing on the Flathead Indian Reservation in Montana, USA: Respecting the Spirit of Place; 6. The Monkton Wildlife Crossing and the Blue-Spotted Salamander: Vermont's First Amphibian Crossing Tunnels; 7. The Railway from Oxford to London Marylebone: Transportation Upgrade Meets Compassion for Vulnerable Habitats; 8. Aerial Corridors in Urban Environments: Light Pollution and Migratory Birds; 9. The Papahānaumokuākea Marine National Monument: Traditional Ecological Knowledge and Marine Protected Areas; 10. Looking Ahead: New Perspectives and Best Practices Related to Wildlife Corridors; Bibliography; Index

About the Author(s) / Editor(s)

Amy D. Proppen is faculty in the Writing Program at the University of California, Santa Barbara. She is author of *At Home in the Anthropocene* and *Visualizing Posthuman Conservation in the Age of the Anthropocene*.
